Engineering Excellence Across Africa

Powered by People. Driven by Impact.

To our clients, our communities, and the future—through sustainable growth that comes from people and the impact they create.

Transcont Global Limited is a leading provider of end-to-end EPC, marine services, and integrated solutions dedicated to supporting Nigeria's and Africa's industrial and infrastructural development.

Headquartered in Nigeria with reach across Africa and strategic global partnerships — including a Houston office serving international clients — Transcont is trusted by clients to execute complex projects under stringent timelines, demanding environments, and evolving regulatory landscapes.

We combine technical expertise, industry experience, innovative financing models, and a relentless focus on safety to deliver projects that matter.

100% Safety Compliance

ISO 9001 Quality Certified

EPC+F Integrated Solutions

Pan-Africa Coverage

OUR MISSION

To deliver end-to-end EPC, marine services, and integrated solutions that power Nigeria and Africa's industrial growth — combining technical expertise, innovative financing models, and a relentless focus on safety.

OUR VALUES

Excellence

Setting industry standards with high quality project delivery.

Integrity

Building trust through transparency and accountability.

Innovation

Deploying advanced tools, technology, and ideas to solve tomorrow's challenges.

Sustainability

Prioritising environmental protection and local content development.

Collaboration

Driving partnerships that foster progress and shared value.

Safety Leadership

Every operation meets international safety, environmental, and regulatory standards.

Full-Spectrum Services:

Delivered on Time, On Budget, At World-Class Standards.

01

EPC+F Project Delivery

- End-to-end Engineering, Procurement, Construction, commissioning and handover.
- Integrated Project Management eliminates bottlenecks, reduces costs, accelerates schedules.
- Safety, Compliance, and Quality that meets international standards.

02

Marine & Offshore Services

- Vessel chartering, marine logistics, offshore transportation
- Mooring systems, anchoring, and subsea operations.
- In-depth knowledge of regional waterways, regulation, compliance, and safety.

03

Supply Chain Management

- Comprehensive Oilfield Equipment Supply – Onshore & Offshore.
- End-to-end procurement and supply solutions, from raw materials and manufacturing to warehousing and delivery.
- Leverage strategic OEM partnerships, integrated logistics, and inventory management systems, to deliver operational efficiency, cost savings, and enhanced customer satisfaction.

04

Asset Integrity & Lifecycle Management

- Pre-commissioning, operations & maintenance (onshore & offshore),
- Predictive/preventive/corrective maintenance to maximise uptime and extend asset life.
- Skilled Workforce Across Engineering, Project Execution, and Delivery—Ensuring Safe, Reliable, and Timely Project Completion.

05

Well Intervention & Decommissioning

- Together with its technical partners, Transcont provides end-to-end well lifecycle solutions—from design and construction to maintenance, intervention, repurposing, and decommissioning.
- Decommissioning solutions that redefine industry standards

Integrated Service Delivery Model

Transcont's full-spectrum services integrate to deliver seamless end-to-end client project execution.

CLIENT PROJECT EXECUTION

EPC+F PROJECT DELIVERY

Integrated engineering, procurement, construction, and financing approach for turnkey project delivery.

01

FINANCING & STRUCTURING

Project finance structuring, EPC wrap models, lender coordination, and risk allocation frameworks

02

ENGINEERING & DESIGN

FEED, detailed engineering, HAZOP studies, 3D modelling, and design verification

03

PROCUREMENT & SUPPLY

OEM-linked sourcing, vendor qualification, expediting, and supply chain management

04

CONSTRUCTION & INSTALL

Site mobilisation, civil, structural, mechanical, and electrical works execution

05

COMMISSIONING & HANDOVER

Pre-startup safety review, systems commissioning, performance testing, and client handover

MARINE & OFFSHORE PROJECT EXECUTION

Integrated marine logistics and offshore support to execute client projects end-to-end.

01

PLANNING & LOGISTICS

Voyage planning, fleet scheduling, route optimisation, and real-time logistics coordination

02

VESSEL SUPPLY & CHARTER

AHTS, PSVs, crew boats, and specialist vessel mobilisation for offshore campaigns

03

OFFSHORE EXECUTION

Construction support, heavy lift, anchor handling, and diving support at project site

04

PERSONNEL & CARGO TRANSFER

Crew mobilisation, accommodation, deck cargo transport, and safety compliance

05

HSE & EMERGENCY RESPONSE

24/7 rapid response, spill containment, search and rescue, and regulatory compliance

END-TO-END SUPPLY CHAIN INTEGRATION

Integrated procurement, logistics, and asset management across the value chain.

01

PROCUREMENT & SOURCING

Vendor selection, equipment supply, and contract management for subsea & topside operations

02

MARINE LOGISTICS

Vessel coordination, offshore transport, and freight forwarding across African waters

03

WAREHOUSING & DISTRIBUTION

Inventory management, shore base operations, and materials distribution to project sites

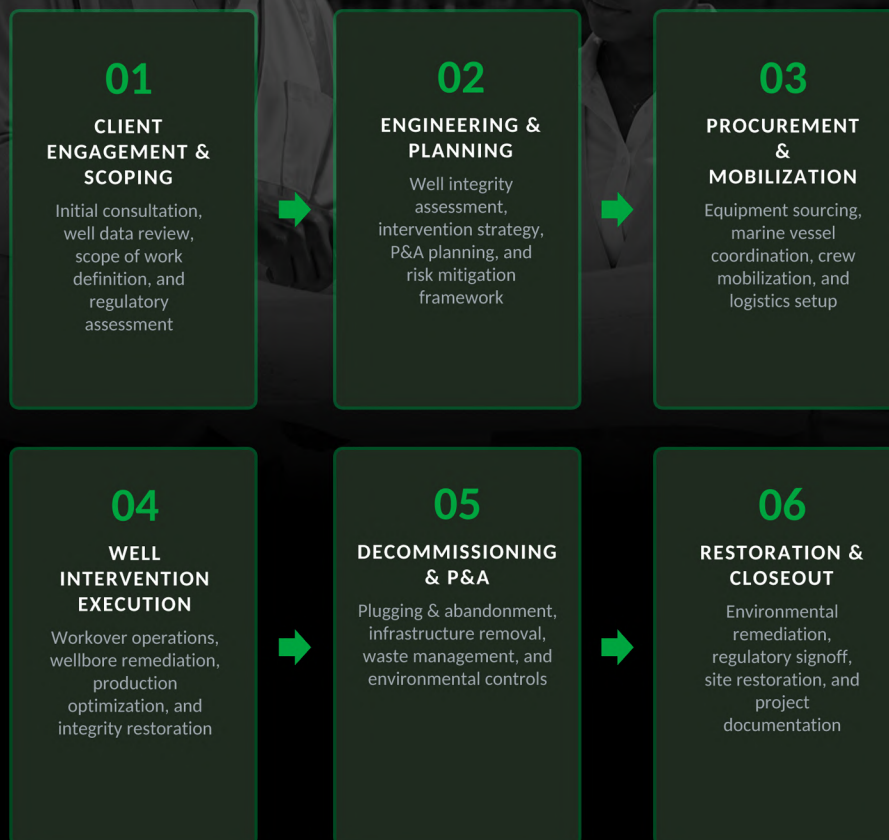

ASSET INTEGRITY & LIFECYCLE MANAGEMENT

A continuous cycle from commissioning through decommissioning — ensuring integrity at every stage.

WELL INTERVENTION & DECOMMISSIONING

Integrated end-to-end approach from initial client engagement through environmental restoration and project closeout.

Integrated Expertise

Engineering, asset management, marine, and supply chain services under one roof — eliminating coordination gaps and delivering seamless end-to-end projects.

Financial Strength

EPC+F financing models that enable projects to move from vision to reality. We structure and secure project finance, bridging capital gaps for clients.

Safety & Compliance

Every operation meets international safety, environmental, and regulatory standards. ISO 9001 certified. 100% safety compliance commitment across all operations.

Industry Innovation

Deploying advanced tools, technology, and ideas to solve tomorrow's challenges. Cutting-edge diagnostic and monitoring systems across all service lines.

Environment Sustainability

Local workforce development, environmentally responsible practices, and NCDMB compliance — maximising Nigerian participation in every project we execute.

Proven Delivery

Multidisciplinary team with track record across oil & gas, infrastructure, and energy. Trusted to execute under stringent timelines and demanding environments.

STRATEGIC PARTNERSHIPS & ALLIANCES

Transcont Global Limited's partnership model is founded on the principle of mutual value creation through strong alliances with top-ranked global OEMs and Service Companies - facilitating the introduction of global technologies and industry standards into the Nigerian market. With offices located in Lagos and Houston, we bridge global expertise with local implementation, creating value for our clients, partners, and the local economy.

OEM TECHNOLOGY PARTNERS

- Equipment supply agreements with tier-1 manufacturers
- Technology licensing and transfer frameworks
- Technical training and knowledge transfer programmes
- Warranty and after-market service arrangements

EPC & PROJECT PARTNERS

- Joint venture frameworks with global EPC contractors
- Sub-contractor and specialist service agreements
- Risk-sharing project delivery models
- Shared resource and equipment mobilisation

FINANCIAL PARTNERS

- Project finance and structured lending partnerships
- Export credit agency (ECA) relationships
- Local and international banking relationships
- EPC+F co-investment frameworks

GOVERNMENT & REGULATORY

- NCDMB local content compliance frameworks
- DPR/NUPRC licensing and pre-qualification
- Ministry of Petroleum resources alignment
- NNPC & NPPMC strategic engagement

UNIQUE TECHNOLOGICAL CAPABILITIES

1. GAS INFRASTRUCTURE & MIDSTREAM OPTIMIZATION

SLB / CAMERON

- Valves
- Actuators
- HIPPS

AMPO POYAM

- High-integrity Specialty Valves
- Pipeline Valves
- Critical Service Specialist Valves

EXCEED TORRIDON

- Well Decommissioning
- Drilling Support
- Heavy-lift Intervention
- Cutting & Recovery Solutions

EPOMS

- Operation & Predictive Maintenance Services
- Operational Support for Gas Plants, FPSOs, & FLNGs Facilities
- Manpower Services

DANFOSS

- Industrial Valves
- Controls
- Drives
- Flow Solutions

SPX FLOW

- Chemical Injection Pumps

TCC

- Engineering, Procurement, Construction, & Finance (EPC+F)

CD BATTERIES / TROJAN

- Lithium Batteries (Onshore & Offshore Facilities)

AISUS

- Remote Internal Inspection Technologies

MARINSA

- Marine Work Vessels
- Accommodation Vessels

2. UPSTREAM ASSET INTEGRITY & DECOMMISSIONING

AISUS

- Remote Internal Inspection Technologies

EXCEED TORRIDON

- Well Decommissioning
- Drilling Support
- Heavy-lift Intervention
- Cutting & Recovery Solutions

EPOMS

- Operation & Predictive Maintenance Services
- Operational Support for Gas Plants, FPSOs, & FLNGs Facilities.
- Manpower Services

MARINSA

- Marine Work Vessels

NIGERIAN CONTENT EXCELLENCE

As an indigenous Nigerian company, local content is not merely a regulatory requirement — it is our core competitive advantage and the foundation of our business model.

We are built to deliver maximum Nigerian participation across every project scope, combining NCDMB compliance with the international standards demanded by IOC operators.

NCDMB COMPLIANCE • ISO 9001 CERTIFIED

Full NCDMB pre-qualification · Nigerian Content Plan development for clients · ISO 9001 quality management across all operations · Regulatory submission management

WORKFORCE DEVELOPMENT

- Nigerian workforce at all tiers
- Technical training & skills transfer
- Graduate development & mentorship
- Professional certification support
- In-country knowledge retention

COMPANY-WIDE LOCALISATION

- Nigerian vendor development
- Local fabrication & manufacturing
- In-country warehousing infrastructure
- SME capacity building partnerships
- Local material sourcing priority

SUSTAINABILITY & ENVIRONMENT

- Environmentally responsible practices
- ISO 14001 alignment framework
- Carbon footprint reduction goals
- Community investment programmes
- Environmental impact management

GOVERNANCE, HSE & COMPLIANCE

ISO 9001 CERTIFIED — Quality Assurance

CORPORATE GOVERNANCE

- Board-level oversight and management accountability
- Financial controls aligned to international audit standards
- Transparent reporting and disclosure frameworks
- Ethics and anti-corruption compliance programmes

HSE MANAGEMENT

- Zero-incident HSE philosophy across all operations
- ISO 45001 Occupational Health & Safety framework
- Site-specific risk assessments and HAZOP reviews
- Emergency response planning, drills, and rapid response

QUALITY ASSURANCE

- ISO 9001 Quality Management System
- Third-party inspection and expediting protocols
- Non-conformance reporting and corrective action management
- Client-specific QA/QC plan development and execution

REGULATORY COMPLIANCE

- Full DPR/NUPRC operational licensing
- NCDMB Nigerian Content Plan compliance
- Environmental Impact Assessment management
- Anti-bribery, FCPA & UK Bribery Act awareness programme

BUSINESS DEVELOPMENT & COLLABORATION

Partnership Framework & Engagement Model

Transcont Global Limited actively seeks strategic partnerships with global technology providers, OEMs, EPC contractors, and institutional investors. With offices in Lagos and Houston, Transcont Global Limited is uniquely positioned to bridge global capability with local project execution.

Joint Venture

Equity JV arrangements with global contractors and OEMs for project-specific or long-term market entry into Nigeria and West Africa.

Agency & Representation

Exclusive or preferred agency arrangements for OEM equipment sales, technical support, and after-market services in Nigeria.

EPC Consortium

Project-specific consortium combining Transcont's local capacity with global EPC and financial partners for major project bids.

Technical Subcontract

Specialist subcontract arrangements providing indigenous delivery capability within an international EPC prime contract framework.

ENGAGEMENT PROCESS

Initial Dialogue > NDA & Scope Discussion > Commercial Framework > Term Sheet > Agreement Execution > Project Mobilisation
